June 25. 1853.

My Dear Sir,

According to my promise at Cincinnati, I now send you by the bearer, Mr. Patterson, a bull and heifer of the "Thorough bred Short Horned Durham Cattle".

I take the liberty of making you this present, upon so short an acquaintance, not because you are the most distinguished musician of your times - not because you are remarkable for your social qualities, but because of your liberal sentiments upon the Rights of man, and your noble efforts to plant a Colony in our land of Freedom. I trust you will accept these animals for your own use and your colony, as a testimony of my respect, and I trust not an unworthy desire to be remembered, as one who fraternizes with the Lovers of Liberty of all Nations. I have the honor to be your friend
Ole Buel Esq.

Pedigree of Red Heifer Pillar.

Sired by Comet Halley. Dam the "Roan Cow"
by the son of Millville: he by Haggins Bull
Miranda. Dam of the Roan Cow by Goldfinks
G. D. by Oliver, G. G. D. by Sen Martin: G. G. G. D. by
Decumbet: G. G. G. G. D. by Pluto imp: ^{at} {see E. War-
fields Herd Book. 3. Calved spring of '51, late
calf.

Wm. Loyal.

The most horned Durham Cattle are from
England: and are regarded as the best form of
animals bred in the U. S. Remarkable less for
milk than Prof. Phipps full feeding and
then they mature early. The Bull should not
be used till 2 yrs. old. Wm. Loyal.

B. J. My bull was white: so I bought you a man: a
White Hall B. D. better color: Wm. Loyal
